EGYPTIAN COTTON NEWS LETTER
(Not for publication)

No Egyptian Cotton News Letter was issued during the month of August

Egyptian Cotton Breeding, Bureau of Plant Industry
U. S. Department of Agriculture

The information contained in this News Letter is drawn mainly from newspapers and trade journals, the published source of the information being given in every case. The object of the letter is to furnish information to officials and cooperators of the Department of Agriculture in regard to the condition of the market for long staple cotton. The Department assumes no responsibility for the accuracy and reliability of these quoted statements, and under no circumstances should they be republished as having been issued by the Department of Agriculture.

LONG STAPLE COTTON MARKET CONDITIONS

The New Bedford Sunday Standard-Times of August 31 states as follows:

"Trading volume in extra staple cotton did not run as high during the past week as during the previous week, but dealing continued in some quarters here and in other New England centers and buying interest was active.

"Extra staple lengths ranging from inch and thirty-seconds up to inch and three-sixteenths figured in the week's activity, in New Bedford, Providence and Fall River. Selected shorter cottons also sold in Fall River and Boston markets in considerable volume.

EGYPTIAN COTTON NEWS LETTER
(Not for publication)

Egyptian Cotton Breeding, Bureau of Plant Industry
U. S. Department of Agriculture

The information contained in this News Letter is drawn mainly from newspapers and trade journals, the published source of the information being given in every case. The object of the letter is to furnish information to officials and coöperators of the Department of Agriculture in regard to the condition of the market for long staple cotton. The Department assumes no responsibility for the accuracy and reliability of these quoted statements, and under no circumstances should they be republished as having been issued by the Department of Agriculture.

LONG STAPLE COTTON MARKET CONDITIONS

The New Bedford Sunday Standard-Times of September 14 states as follows:

"More active buying interest, some definite mill inquiry and a very moderate amount of actual trading characterized extra staple cotton markets here and elsewhere in New England during the past week. Spots were wanted in some quarters but were hard to find in the length and grade desired. Rising futures found a few shippers willing to accept business at slightly lower basis premiums than they formerly quoted, but this was only occasional and market quotations, as a rule, were unchanged from the two preceding weeks, even though there was somewhat more activity.

" *** Based on December futures, government classed cotton, F.O.B. New Bedford, is quoted as follows for strict low middling, for middling and for strict middling:

* * *
Inch and 1/8th - 200 to 225; 300 to 325; 375 to 400.
Inch and 3/16ths - 375 to 425; 525 to 575; 675 to 725.
Inch and 1/4th - 600 to 650; 800 to 850; 950 to 1,000."
